Hydra Royal

Hydra Royal

FAMILY

Hydra Royal FAMILY is a luxurious treatment giving a „royal skin” effect.

It has been created for multi-level revitalisation.

Thanks to a several-stage treatment series, it conditions and stimulates all layers of the skin, from the epidermis to the deep dermal structures.

STEP 1

• HYDRA ROYAL PEEL

– year-round lifting and brightening peel 3x5ml

(Active ingredients: lactic acid, citric acid, ferulic acid, tranexamic acid)

STEP 2

• HYDRA ROYAL

– Hyaluronic acid-based stimulator 60mg/3x1ml

Active ingredients: hyaluronic acid)

&

• HYDRA ROYAL BOOSTER

– beautifying and brightening cocktail 3x5ml

(Active ingredients: hydrolysed collagen, hyaluronic acid, hydrolysed pearl powder, colloidal gold, tranexamic acid, carnitine, beta glucan, allantoin, shea butter)

STEP 3

• HYDRA ROYAL MASK

– Collagen mask with pearls and gold 3x35ml

((Active ingredients: hydrolysed collagen, hyaluronic acid, hydrolysed pearl powder, colloidal gold, tranexamic acid, carnitine, beta glucan, allantoin, shea butter)

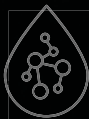

Hydra Royal

Hydra Royal FAMILY is a highly lifting luxury treatment line created for:

- progressive ageing and tissue atrophy
 - multiple wrinkles
- dehydration and dryness of the skin
- photoageing and sun-induced elastosis

Mode of action of the treatment line:

- replenishment of endogenous hyaluronic acid
- reduction of skin dryness and dehydration wrinkles
 - filling in of mimic and chronic wrinkles
- restoration of the skin's natural density and elasticity
 - improving hydration and tissue hydration
- optimising metabolic and functional skin processes
 - stimulating collagen and elastin synthesis

Highest content of hyaluronic acid, amino acids, vitamins and conditioning ingredients

Modular treatment with multiple protocols adjusted to individual skin needs

6 treatment protocols and the possibility to use each product separately

A holistic action on all skin layers.
A complementary approach to multidimensional rejuvenation

Hydra Royal

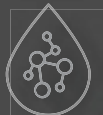

Innovative stimulator and biorevitalizer based on highly concentrated hyaluronic acid 60mg/3ml

Volume:
3x1ml

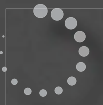

Innovative stimulator and bio revitaliser on the basis of highly concentrated hyaluronic acid 60mg/3ml, for the immediate improvement of skin hydration, smoothness and tone. Dedicated to the strong non- elimination of superficial wrinkles, thickening of the skin structure and conditioning of skins in need of strong renewal and revitalisation.

The use of up to 60mg of high molecular weight hyaluronic acid makes it one of the strongest rejuvenating products in its category. In addition, thanks to the use of Aqua-Oxygen Hybrid II technology, hyaluronic acid is aerated and hydrated during the manufacturing process, increasing its elasticity and hygroscopic capabilities. At the final stage of production, the specially selected acid molecules are protected by an admixture of a crosslinking factor, giving them a long-lasting release system in addition to their exceptional revitalising properties.

With its advanced manufacturing system, unique technology, exceptionally high acid concentration, light crosslinking, and the ability to administer the product with up to 6 techniques and treatment protocols, Hydra Royal redefines skin rejuvenation and revitalisation.

Hyaluronic acid:
Highest content of
hyaluronic acid
60mg/3ml

Technology:
Aqua Oxygen
Hybrid II to improve
the revitalising
properties of the
acid

Stabilising factor:
Increasing the
product release
and extending
effects of the
treatment

Application techniques:

- microdose with a needle
- retrograde line with a needle or cannula
 - 5-point (Royal Lift Points)
 - 6-point
 - 10-point

Packaging:
In single blister packs
allowing the product
to be divided into
individual
treatments

CE
0373

Hydra Royal BOOSTER

Amino acid and vitamin mesococktail

Volume:
3x5ml

HYDRA ROYAL BOOSTER is an advanced concentrated product with a spectacular beautifying effect, designed to rejuvenate the skin and improve its firmness. The formula contains a multicomplex of amino acids and vitamins enriched with hyaluronic acid, minerals and glutathione for multi-level conditioning and a 'royal skin' effect.

The addition of highly concentrated hyaluronic acid provides a long-lasting moisturising and smoothing effect and makes the skin look younger and more beautiful. The formula reconstructs the skin's collagen structure and has an anti-wrinkle and firming effect. Dedicated to mature, dry and tired skins that lose radiance and tone.

ACTIVE INGREDIENTS AND MODE OF ACTION:

UNCROSS-LINKED HYALURONIC ACID: 5mg/ml

VITAMINS:

- Biotin
- Niacinamide
- Pyridoxine
- Thiamine
- Sodium Ascorbate
- Tocopheryl Acetate
- Retinyl Palmitate
- Inositol

MINERALS:

- Calcium Chloride
- Potassium Chloride

AMINOXIDES:

- Alanine
- Histidine HCL
- Isoleucine
- Arginine HCL
- Proline
- Glycine
- Leucine
- Lysine HCL
- Methionine
- Phenylalanine
- Serine
- Threonine
- Valine
- Tryptophan
- Glutamine
- Taurine
- Acetyl Cysteine
- Hydroxyproline

REDUCING AGENT:

- Glutathion

Hydra Royal PEEL

Year-round lifting and brightening peel

Volume:
3x5ml

HYDRA ROYAL PEEL is a specialised chemical stimulator for increasing skin hydration, tone and soft- lifting. The peeling formula works very gently on the skin causing minimal irritation and a long-lasting refreshing effect, and the treatment procedure can be used all year round. The peel is dedicated to the renewal of mature, dry and tired skins, lacking radiance and tone. Also dedicated to sensitive skins, including the revitalisation of the eyelid and eye area skin.

The synergistic combination of acids has a positive effect on the renewal of the skin and the hydrolipidic mantle, providing a long-lasting moisturising effect. The lactic acid content accelerates the rate of epidermal cell renewal, producing a long-lasting refreshing effect on the skin, without the feeling of dryness. In addition, in cooperation with tranexamic acid, the treatment inhibits melanogenic processes, effectively reducing the formation of discolouration and hyperpigmentation. Thanks to the powerful antioxidant ferulic acid, it perfectly alleviates the consequences of exogenous ageing and immunises the skin against ultraviolet radiation and the negative effects of pollution, smog and other environmental factors.

ACTIVE INGREDIENTS AND MODE OF ACTION:

ACID COMPLEX:

- Lactic Peel
- Citric Acid
- Ferulic Acid
- Tranexamic Acid
- Sodium Lactate

PLANT EXTRACTS:

- Glycyrrhiza Glabra Root Extract
- Morus Alba Fruit Extract

AMINO ACIDS:

- Arginine HCL

EXCIPIENTS:

- Panthenol

Hydra Royal MASK

Hydrogel mask enriched with colloidal gold

Volume:
3x35ml

HYDRA ROYAL Mask is a natural collagen hydrogel, enriched with precious colloidal gold and precious powder of hydrolysed pearls. It relaxes, strongly conditions the skin and enhances vitalisation. Enriched with hyaluronic acid, it provides a long-lasting moisturising and smoothing effect and makes the skin look younger and more beautiful. The addition of tranexamic acid improves skin tone and removes signs of ageing and stress. Thanks to the content of beta-glucan, allantoin and natural collagen, as well as the possibility of cooling, the mask quickly soothes irritation, brings comfort and relaxation. Thanks to its unique three-dimensional structure, it adapts perfectly to the skin, creating an ultra-hydrating occlusion to promote the active diffusion of luxurious active ingredients. Its unique technology and structure guarantees maximum effectiveness and an immediate „royal skin” effect.

INDICATIONS FOR USE:

- NON-INVASIVE SKIN CARE TREATMENTS
- BANQUET TREATMENTS
- AFTER AESTHETIC MEDICINE TREATMENTS SUCH AS:
 - needle and micro-needle mesotherapy
 - Chemical peels
 - Laser therapy
 - Fillers
 - Other invasive and skin-irritating treatments

Optimising and enhancing the effects after treatments
with products from the Hydra Royal line.

Treatment protocols

Step 1 Royal refreshing & peel

- 1) Before using HYDRA ROYAL PEEL, cleanse and degrease the skin with PREPEEL LOTION 1.
- 2) Take approximately 1.5ml of HYDRA ROYAL PEEL into a sterile syringe.
- 3) Apply the product in a thin layer onto the prepared skin topically and rub it in with intensive lifting massage movements, until partially absorbed.
- 4) Leave on the skin for 8-15min and then wash off with water and perform STEP II.

Step 2 Royal lift & hydration

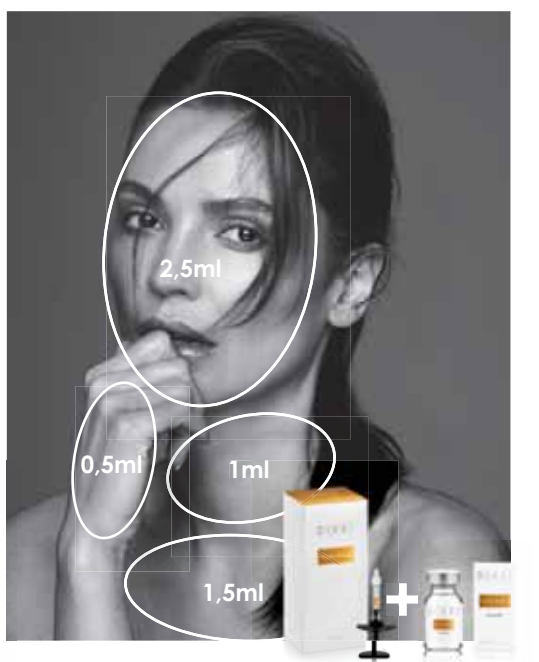

Use Hydra Royal according to one of the following administration techniques:

- 1) microdepositional with a needle
- 2) retrograde with a needle or cannula
- 3) 5-point (Royal Lift Points)
- 4) 6-point (Royal Lift Six Points)
- 5) 10-point (Royal Skin Reconstruction)
- 6) Combined technique with additional use of Hydra Royal BOOSTER (Royal Hybrid)

Depth of administration:

- 1) deep layers of the dermis (needle)
- 2) at the border of the dermis and subcutaneous tissue (cannula)

Royal lift & hydration

Step 3 Royal shine & soothing

- 1) Chill the mask in the fridge for 2 hours before use.
- 2) Apply to cleansed skin.
- 3) Place the gel side on the face according to the anatomical cutouts.
- 4) Remove the protective outer layer.
- 5) Leave on for 15-20 minutes and then remove.
